CAREER OBJECTIVE

As a motivated and passionate student majored in Logistics & Supply Chain with strong skills in inventory tracking, reporting, operational support, and critical thinking, I seek a Intern position to enhance my knowledge and experience in data reconciliation, store operations, inventory movement tracking, and retail performance reporting.

EDUCATION

FOREIGN TRADE UNIVERSITY HO CHI MINH CAMPUS - FTU2

Sep 2023 - Present

International - Oriented Program: Bachelor of Logistics and Supply Chain Management

Graduation: Expected 2027

- **Cumulative GPA:** 3.96/4.0 (9.18/10)
- **Achievements:** Recipient of Academic Encouragement Scholarship 3 times (Top 5%); Student of 5 Merits; Advanced Youth Follow President Ho Chi Minh's will; Received ADM Awards Scholarship 2024 (Top 6 students)
- **Selected Coursework:** International Trade Transactions (9.2); International Transportation Management (8.7); Logistics Operations (8.7); International Business Law (9.6); International Trade Policy (9.2); International Business (9.8); Database (9.2).
- **Additional Coursework:** MITx MicroMasters program in Supply Chain Management; Google Data Analytics; Google Project Management.

EXPERIENCE

BRITISH AMERICAN TOBACCO (BAT) VIETNAM - VINA-BAT

Feb 2026 - Present

Production Intern

- **Coordinated** project documentation, presentations, and meeting follow-ups to enhance communication efficiency among pillars in the organization's IWS.
- **Supported** culture and behavior improvement initiatives aligned with BAT's quality, safety, and continuous improvement standards.

ACADEMIC PROJECTS

Course project: "International Trade Transactions"

Apr 2025 - June 2025

Final Score: 9.4/10 | Top 2 project

- **Applied** theoretical knowledge of Incoterms, international trade contracts, documentation, and regulatory frameworks to draft a complete international sales contract for importing wooden cutting boards from Australia under CPT delivery terms and D/P payment method, applying course foundations on direct sale, intermediary transactions, and internationally recognized commercial practices.
- **Strengthened** skills in negotiation, contract drafting, and international transaction management, demonstrating the balance of theory and practical competencies targeted by the course and aligning with higher-level academic and professional standards in global trade.
- **Supporting Document:** Sales Contract (PDF)

Course project: "Logistics Operations"

Aug 2025 - Oct 2025

Final Score: 9.6/10 | Team Leader | Top 3 project

- **Developed** a sustainable forward logistics network model for perishable goods while applying core course concepts such as logistics roles, LSP categories, outsourcing decisions, and end-to-end origin-destination service flows.
- **Applied** data consolidation and reconciliation logic, with theoretical and practical knowledge on consolidation, cross-docking, documentation handling, and Incoterms-based import-export operations to design an integrated MINLP framework covering production, warehousing, transportation, and FIFO inventory rotation.
- **Strengthened** quantitative modelling, customs-related reasoning, and logistics planning skills, translating course foundations in trade documents, L/C, and customs clearance into data-driven decisions supporting resilient and efficient supply chain operations.

Scientific Research - Topic: "The Influence of Environmental Awareness on Gen Z's Choice of Last mile Express Delivery services"

Sept 2024 - Mar 2025

Consolation Prize | Team Leader

- **Led** a 4-member team in making an in-depth and data-driven research, survey design, and development of evidence-based conclusions that aligned with the research objectives, ensuring methodological accuracy and reliable primary data for analysis.
- **Analysed** consumer purchasing behavior in e-commerce, linking delivery performance and service quality to customer experience. Processed and validated datasets using, and applying knowledge learned to real-world cases in Ho Chi Minh City, with the focus on Gen Z's shopping habits in E-commerce.
- **Managed** project execution, data checking, reconciliation, and reporting, assigning tasks, consolidating team outputs, and producing a coherent, well-structured final report that met academic research standards.

HONORS AND AWARDS

Second Runner-up, LogiChain 2025 Competition organized by National Economics University (NEU)

- **LogiChain 2025** is a leading national competition in Logistics & Supply Chain Management, with over 1300 participants from 60 universities nationwide, offering students the opportunity to tackle real-world challenges in the automotive industry under the theme "Lean Supply Chain in the Automotive Industry."
- **Analyze** end-to-end automotive supply chain bottlenecks and propose lean-integrated solutions to reduce lead time, optimize TCO (13.19% reduction with the application of Decree No.26/2023), and enhance the customer service level ($\geq 90\%$).
- **Apply** Excel Open Solver, data-driven methods, and bidding process to build the working timeline with Cut-off Time for the manufacturing factory and DC, establishing MRP (sourced from domestic and foreign suppliers), MPS, and DRP with a strategic, green distribution network in DC usage and Reverse logistics for 40 dealers from 3 regions in Vietnam.

Consolation Prize, Student Scientific Research Competition organized by Foreign Trade University HCMC (FTU2)

Consolation Prize, Supply Chain Champion Competition organized by University of Economics Ho Chi Minh City - Vinh Long Campus (1000+ participants nationwide)

Top 40, SCMission 2025 Competition organized by Foreign Trade University HCMC (FTU2) (295+ teams from 27 universities)
